**WHY DO WE EXIST?**

We started this Flower Market specifically to give the people of Logan City and the Southside a place where they could have a positive and joyous experience. A place where human interaction was valued above all else and somewhere people could come and enjoy Mother Natures Beauty in all her glory. Covid gave us the courage to open this experiential flower business May 1 2021. It's our Gift to the People of Logan City. It's a place where Community can come together, chat for a while and just enjoy breathing.
